

iteQlimited[®]

Company Portfolio

Company Overview

iteQ® Limited is a technology company that offers customers a single source solution in Building Services. The iteQ group focuses its services on medium to large scale commercial clients, who are looking for support in specialist areas that involve technology. Most of our work has come from recommendations where our network of clients increasingly grows. Our clients include:

- Architects, Builders & Constructors
- Housing Associations
- Public and Private Limited Companies
- Financial Institutions
- Educational & Retail
- Hotels, Restaurants & Bars

Strength

Our strength is that we offer integrated solutions because iteQ, as a group, can easily combine and coordinate skills. We can offer complete building solutions in:

- Security Systems and Gate Automation
- Electrical contracting and lighting
- Home/Office Automation and HVAC
- IRS Satellite and Audio/Video distribution
- Information Technology and Voice & Data Structured Cabling

To achieve this ItEQ has three specialist divisions:

- iteQ Living
- iteQ Security
- iteQ Electrical

iteQliving

As our leading brand, iteQliving offers expert advice in technology control solutions and audio/video systems.

IteQliving specialises in the automation of homes and offices and audio/video installations. We offer new ideas to our clients who are looking for modern design and techniques. These are some of the areas iteQliving covers;

- Automated systems
- Intelligent lighting
- Heating, Ventilation and Air Conditioning control
- Home Cinema
- Multi-zone A/V distribution
- Satellite installations

Integration

With our knowledge in automation technology and expertise in Audio/Video and custom installations, these systems can be integrated with other solutions offered within our group to give clients even greater control and flexibility.

Strength

IteQliving has a strong list of products which we have been able to secure by building our brand as one of the leading names in the industry. Our core product list includes:

- Crestron
- Lutron
- Bowers & Wilkins
- Kaleidescape
- Sonos
- Artcoustic

Vision

Home cinema and whole house audio/video distribution takes entertainment to a new level. Our ability to supply acoustic performance with stunning visual effects gives unlimited enjoyment from a whole new generation in entertainment systems.

Portfolio

With the latest cutting edge technology at our disposal we can design and custom install a system that offers the ultimate lifestyle and enjoyment. Some of our clients who have benefited from our expertise include;

- BBC Haymarket
- London Stock Exchange
- Meteor-UK
- Nicolas Tye Architects
- Onis Home
- Piper Jaffray Ltd
- William Asprey

iteQsecurity

iteQsecurity is part of the iteQ vision to provide specialist and qualified security teams with the guidance and control of the parent company. With the development of the internet and integrated digital technologies, iteQsecurity has developed along with it. IteQsecurity specialises in;

- Access Control
- ANPR
- Biometrics
- Digital CCTV
- Gate Automation
- Fire & Security Alarms

Relationships

IteQ has long standing relationships with OEMs working with Norbain, Honeywell, Panasonic, WatchNET, Samsung and BPT to name a few. All equipment iteQsecurity uses has been tested so that we can use the right product for the application.

Service Delivery

We provide a service that is constantly measured and monitored to ensure that we hit the highest standards. This results in a quality driven work force and excellence in service delivery. This is guaranteed through the creation of individual service agreements.

Qualified Security Staff

Our staff meet the high demands of UKAS and iteQ Directors, with appropriately trained security staff and all staff been vetted according to BS7858. All members of our security teams are fully conversant with the contract before we begin operations, ensuring all requirements are met.

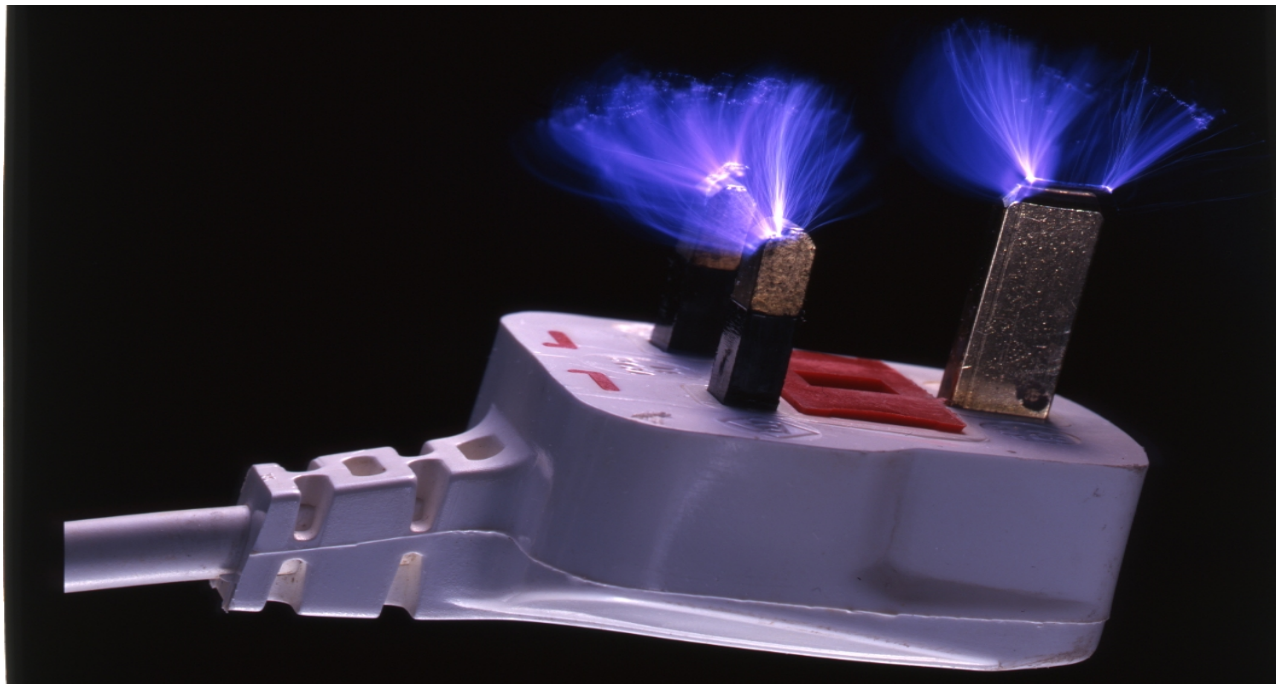

Portfolio

Below is a list of clients and jobs that iteQsecurity has either maintained, installed or supported in the building, security and private sector;

- Meteor Security
 - Installation and maintenance of access control and CCTV Systems
 - Aviance Heathrow Airport
 - Pink Elephant Car Parks
 - Bus Depots – London Area
 - Coca Cola - Edmonton
 - Car Park & Shopping Centre - Boston
 - Meadows Shopping Centre - Chelmsford

- Omni Security
 - Huntingdon Town Centre
 - Design Museum – Tower Bridge
 - Tiscali

- EPS
- Metropolitan Housing Trust
- Canalside Housing Partnership
- Gibbs Garages
- Highams Park School
- Strongvox
- ADT Fire & Security

iteQelectrical

With the view to provide electrical installations and continue the growth within the iteQ group, iteQelectrical was formed. This was achieved by acquiring an established electrical company with a proven track record.

Accreditation

By becoming part of the iteQ group, iteQelectrical can continue to provide electrical contracting, while learning new skills guided by iteQs' vision to implement plans of gaining Energy Efficient Accreditation for the installation of Solar PV arrays and other Energy efficient systems.

Our plan is to make iteQelectrical no ordinary electrical contractor, but ensure it is at the forefront of ever changing building regulations and installations.

Portfolio

IteQelectrical has gained from the previous company by transferring existing contracts and keeping its entire experienced staff. The contracts they have worked on include:

- ROK
- Samsear Construction
- Bournemouth & Manchester Airport
- X Leisure
